- 10.45-11.30 **BROADENING PERSPECTIVES: SHARING RESOURCES AND EXPERTISE FOR ENHANCED FUNDRAISING PRACTICES**
Annelies Coghlan, Charities Institute Ireland / EFA Certification Committee
Facilitating the sharing of materials and trainers is pivotal in fostering knowledge exchange and aiding other organisations in getting started with certified programmes. By creating networks, individuals can share expertise, resources, and guidance. This collaborative approach accelerates learning curves, promotes skill development, and empowers a broader community. Through shared materials and experienced trainers, the collective journey toward effective learning programmes becomes more inclusive, efficient, and supportive, fostering a culture of continuous learning and growth.

- 13.30-14.15 **EVOLVING PRACTICES: UPDATES AND INSIGHTS ON FUNDRAISING LEADERSHIP FRAMEWORKS**
Part 1 - Rationale and revisions: updating the advanced fundraising framework
Ian MacQuillin, Rogare / EFA Certification Committee
The Advanced Framework was officially adopted at the start of 2022. So why have we decided we need to review it so soon after we have started using it? Because it was drafted at least five years ago, and the fundraising world has moved on since then. In this workshop, we'll take you through the rationale for why we are revising the advanced framework, and some of the changes we are working on, including, among other things, making sure diversity issues get due consideration and ethics is more prominent.
Part 2 - Defining leadership within the evolving fundraising landscape
Paul Dalby, Chair, EFA Certification Committee
The word leadership is often used within the Advanced Framework. Looking more closely, the terms leader or leadership are not defined – and vary in meaning. Team leading is in reality not the same as leadership of an organisation as a whole. The responsibilities and skills needed in either case are different. How can the Advanced Framework play a part in clearly and unmistakably promoting leadership? Your contributions to this workshop will help!
- 14.15-14.30 *Networking break*
- 14.30-15.30 **BUILDING VIBRANT STRATEGIC NETWORKS: TACTICS FOR EFFECTIVE COLLABORATION**
Timo Järvensivu, Consultant and Trainer
Timo Järvensivu has 20+ years of experience in network management. He earned his doctoral degree in 2007 on the research of strategic business networks. Since then, he has studied, consulted and trained dozens of public and third sector networks. He is the author of the research-based, practice-oriented book “Managing (in) Networks – Learning, Working and Leading Together” (2020), which is available free online. Järvensivu will present key ideas on how to create and manage vibrant strategic networks.
